

# **SK Tree Planting Project Proposal**

## **Project Title:**

"SK Green Roots Initiative: Community Tree Planting Project"

## **Proposed By:**

Sangguniang Kabataan (SK)

## **Date:**

[Insert Date]

---

## **1. Introduction**

The SK Green Roots Initiative is a community-driven tree planting project aimed at promoting environmental sustainability, improving air quality, and increasing green spaces within the barangay. As climate change continues to affect communities, it is essential to engage the youth in proactive environmental action. This project will serve as a long-term investment in the ecological health of the barangay while fostering a culture of environmental stewardship among young people.

---

## **2. Project Rationale**

Environmental degradation, rising temperatures, and decreasing green cover are pressing issues faced by many communities today. Tree planting offers a simple but powerful solution—trees help regulate temperature, mitigate flooding, reduce pollution, and provide habitat for wildlife. The youth sector, through the SK, is in a strategic position to spearhead initiatives that contribute to environmental preservation.

The project aligns with national and local programs promoting environmental awareness, climate action, and community involvement.

---

## **3. Project Objectives**

### **General Objective:**

To promote environmental sustainability by planting trees within the barangay.

### **Specific Objectives:**

- To plant at least **100-300 seedlings** in designated areas.
  - To involve the youth and community members in environmental action.
  - To raise awareness about the long-term benefits of tree planting.
  - To encourage barangay-wide cooperation in maintaining green spaces.
  - To conduct a short environmental education seminar before the activity.
- 

## **4. Target Beneficiaries**

- Youth participants
  - Local residents
  - Future generations
  - Entire barangay ecosystem
- 

## **5. Project Location**

- Designated open areas within the barangay
  - Barangay parks, riverbanks, vacant lots, or roadside areas suitable for tree planting
- 

## **6. Project Activities**

1. **Coordination and planning** with the barangay council, DENR, and local NGOs.
  2. **Site assessment** to determine appropriate planting areas.
  3. **Procurement of seedlings** (fruit-bearing trees, native trees, ornamental trees).
  4. **Youth and community mobilization** through announcements and invitations.
  5. **Environmental awareness orientation** for participants.
  6. **Tree planting activity.**
  7. **Post-planting maintenance program**, including watering schedules and monitoring.
- 

## **7. Project Timeline**

Activity	Timeline
Planning and coordination	Week 1
Site identification	Week 1-2
Seedling procurement	Week 2
Project promotion	Week 2-3

Activity	Timeline
Tree planting event	Week 4
Post-maintenance	Monthly for 6-12 months

---

## 8. Budget Proposal

Item	Estimated Cost
Tree seedlings (100-300 pcs)	₱3,000-₱10,000
Tools (gloves, shovels, watering cans)	₱2,000-₱5,000
Snacks and water for volunteers	₱2,000-₱4,000
Tarpaulin and documentation	₱1,000-₱2,000
Transportation and logistics	₱1,000-₱3,000
<b>Total Estimated Budget</b>	<b>₱9,000-₱24,000</b>

---

## 9. Expected Outcomes

- Increased green coverage within the barangay.
- Enhanced youth participation in environmental initiatives.
- Greater awareness of climate action among residents.
- Development of sustainable environmental practices.

---

## 10. Monitoring and Evaluation

- Monthly monitoring of tree growth and condition.
- Reporting to the SK Council and barangay officials.
- Documentation of progress through photos and reports.

---

## 11. Project Sustainability

To ensure tree survival, volunteers and barangay workers will coordinate regular watering, cleaning of the planting sites, and protection from grazing animals. Community partners will be encouraged to adopt specific planting areas.

## **12. Conclusion**

The SK Green Roots Initiative is more than a one-day event—it is a long-term commitment to creating a healthier, cleaner, and greener barangay. By involving the youth, the SK fosters a sense of responsibility and environmental consciousness that benefits both present and future generations.
